Interventions to reduce adverse events impact on health care (II)

Las intervenciones para reducir el impacto de eventos adversos en la atención sanitaria (II) (PCC03)

As the former one, this session also aims to highlight the highly relevant work on patient safety. Challenges will be presented and contributions made from Cochrane, and more general Evidence-based health care, perspectives will be highlighted as well as directions for future developments.

Como la anterior, esta sesión también tiene como objetivo destacar la gran relevancia de los trabajos sobre la seguridad del paciente. Se van a presentar los desafíos existentes y las aportaciones realizadas desde la Colaboración Cochrane y más en general, la perspectiva de la atención sanitaria basada en la evidencia. También se destacarán los futuros desarrollos en este campo.
